UNLEASH PARIS 2026

HUMAN SIDE OF AI TRANSFORMATION

AI First Operation. Human First Culture.

Inadequate leadership is the biggest obstacle to AI transformation. We train managers to drive adoption in their teams and turn resistance into momentum.

HOW WE START

A short readiness check across these five areas — the programme is built on your real gaps, co-designed with you from day one.

1. **Understanding AI**
2. **Growth mindset**
3. **Personal efficiency**
4. **Spotting opportunities**
5. **Engage & change**

Develop leaders who make things happen.

25+ years
1300+ organisations
30+ countries

Most programmes start with a curriculum. We start with your business.

Silos slow execution, strategy aligns on paper, not in practice. We build the behaviours your leaders need around your real business goals, then keep supporting the transfer long after the sessions end.

1. **Leading Self**
   Self-awareness & credibility
2. **Leading Others**
   Team performance & alignment
3. **Leading the Organisation**
   Transformation & complexity

Ready to make it happen?
